

ORGANIC BIOLINK[®] BORON FERTILIZER

2-0-0, 3%B

PRODUCT INFORMATION

Organic BioLink Boron Fertilizer can be used to correct and prevent boron deficiencies in all plants.

Organic BioLink Boron Fertilizer is an essential plant nutrient that is involved in cell development and differentiation as well as in sugar and carbohydrates development.

Organic BioLink Boron Fertilizer is readily available to offer improved uptake by roots and foliage, providing a quick boost to plants under nutrient stress and correcting deficiencies.

Organic BioLink Boron Fertilizer contains complexed boron designed for soil and foliar applications.

GUARANTEED ANALYSIS

DIRECTIONS FOR USE

SHAKE VIGOROUSLY BEFORE USING.

Soil Applications: **Organic BioLink Boron Fertilizer** can be applied at 1 quart to 1 gallon per acre through a drip system or injected into the soil. **Organic BioLink Boron Fertilizer** can be mixed with preplant or sidedress fertilizers.

Foliar Applications: For vegetable, field and row crops: Use 0.5 to 2 quarts per acre of **Organic BioLink Boron Fertilizer** when plants are 8-12 inches in height. Repeat application 2 to 4 weeks later or as needed based on soil or tissue testing.

Compatibility: Always conduct a compatibility jar test before mixing **Organic BioLink Boron Fertilizer** with new products.

WARNING: Phytotoxicity may occasionally occur on sensitive plants. Perform a phytotoxicity test on a small plot before large-scale application.
